Doubtful Tone of Reports Issued Concerning the Royal Patient Makes the People Slow in Accepting Assurances of Attending Physicians-Emperor Insists on Attending to State Duties.

BELLIN, Nov. 9 .- Has Emperor William cancer of the throat? All Germany is asking this question and fearful of the answer that may be given. Although the physicians in attendance worded their bulletiins ini reassuring strains there is still a doubtful tone to their reports that rob the people of the confidence they would feel and the sentiment throughout the

This is furthered by the knowledge that the operation of Saturday was the third performed on the Kaiser, his second experience under the knife being two years ago. Hence the recourse to surgery again causes absolute alarm.

information from private sources show that the operation on peror William is similar to the first one performed on his father, and the official statements issued by the surgeons fail to reassure because it is well understood that for reasons of state the Emperor would be given the benefit of any doubt as to the true character of his disease.

It is recalled that the surgeons at that time made nothing of the first operation on Emperor Frederick. There is anxiety because both Emperor William's father and mother died of cancer and his grandmother Augusta s also so afflicted. The Emperor's aunt, the Grand Duchess of Baden, as is well known in Germany, is suffering from the same malady,

It will take months to decide whether the fears now entertained are

"As for the rest, I am unacquainted with the clinical side of the case, but I believe I am warranted in saying that the Emperor in eight days will again have full possession of his vocal powers."

Dr. Moritz Schmidt, of Frankfort-on-the-Main, who removed the polys, has performed thousands of similar operations. The Emperor has known Dr. Schmidt intimately ever since, as Crown Prince, he went to San Remo to see his father, when he took Dr. Schmidt on the same car with himi. It was, therefore, the Emperor's own decision to instrust him with the operation. The latter lasted only a minute or two.

The latest news regarding the condition of Emperor William at this hour, 6.30 P. M., is that it remains satisfactory. He worked several hours this afternoon on Government business and wrote a long telegram to King Edward, congratulating him on his birthday

Then there came the story that the aged intillonaire had married the actress a couple of years before and that the ceremony had been performed by Samuel Stanton, a Hudson County Justice of the Peace, Stanton stood for the wedding and then it was announced there was a child which had been born in the Hendrick sanitarium.

The trial was held in the County Court-flouse in Freehold last December and lasted ten days. Miss Biggar took the stand and made an impression with the jury found there had been a conspiracy at least two persons must be found guifty, as one could not conspire. He said it was possible for them to acquit one and convict two, but not possible to acquit two and convict one. The jury acquited Miss Biggar and found the doctor and the justice guilty.
